

## Jolene, Sol, and Estrella's Story

Jolene an avid volunteer for CARL recently purchased a new home and felt there was something missing in her and her husband's home. One evening while scrolling through social media, Jolene stumbled upon a post from CARL and from that moment, Jolene knew that one of the dogs from the post was going to fill what was missing in their new home. A few days later Jolene and her husband met with the foster of Sol and Estrella. Call it coincidence or fate but believe it or not Jolene and her husband's new home is on Sol Street and has a cross street of Estrella. From the moment Jolene and her husband met Sol and Estrella they knew they wanted to add the two dogs to their family. Jolene described the application process as easy and straight forward. The whole process from discovering the dogs to taking them home took about a week. Jolene was provided with food, toys, and other supplies necessary for a smooth transition into their home. What Jolene was most impressed with was the support from the rescue during and after the adoption. Since both dogs needed to be fixed, Terry went above and beyond by coordinating pickup and drop off from the clinic and provided Jolene with aftercare instructions for both dogs. We are so grateful for people like Jolene and her husband and wish them the best years ahead with their new companion.
